Leadtime:	10 Working days from proof approval
Weight:	17g
Material colours:	Clear

## Packaging and Other Information

No Per Carton:	500
Packaging Details:	406 x 208 x 170mm
Carton Weight:	12Kg
Standard Packaging:	Bulk Packed
Alternative Packaging:	N/A

## Recommendations and Limitations

During welding, air bubbles are trapped inside the luggage tag so that when in use, they give the illusion of an extra liquid. Both liquids and colourings are safe and commonly used in food and cosmetic industries. Please Note: We cannot weld metallic colours. Please do not print metallic colours within 15mm of edge.

Ideal For: Conferences, Pharmaceutical, Waterboards, Tourist Attractions, Recruitment

## Aqua Luggage Tag

Sizes available: 55 x 135mm

Screen Print:

- Editable EPS file
- Image saved at 100% size or larger
- Pantone® references supplied for colours
- Fonts supplied or text saved as curves

Regardless of print method:

- Allow 10mm bleed all around the design.
- It is advisable to have a 5mm gap between the design and weld as welding can be effected when applied through ink.
- Artwork to be emailed with your order number and company name in the reference line or supplied on CD with same information clearly labelled.

Full detailed guidelines including limitations & recommendations are available for each printing method on request.

QR Codes - Please note that the print process and substrates used in the production of this item may not always allow QR codes, if present on your artwork, to function correctly. When approving your proof, you are accepting that this may be the case and as such accept full liability for any malfunction of the QR code.
